

Replication or Duplication - Before you decide...

It took careful consideration & extensive planning to come up with **the best possible deal**.

Be sure that we can source or broker whatever you need. But for the most part of it we offer a duplicated disc with full color print, generic disc design & disc sleeve.

Our replication is done abroad. The replication price includes mastering and printing but no packaging. Because packaging options are so diverse we quote/broker/treat every case individually.

If by now you are confused by the talk of duplicating & replicating, you should look at the comparison chart below.

Replication vs. Duplication

Duplication	Replication
Duplication refers to the large-scale burning and inkjet printing of writable discs.*	Replication refers to the glass master method of copying & silkscreen printing.
Best option for short runs of less than 2 000 discs.**	Becomes more cost effective for larger runs of 2 000 discs or more.
Turnaround time a maximum of to 5 days.***	Turnaround time can be up to one month.
97.5% Reliable & compatible.	99.99% Reliable & compatible.
100% color accuracy can not be assured.****	Professional silkscreen printing would not smudge or fade & are identical to a CD or DVD bought in the shops.
50% Deposit required the rest is COD.	100% Deposit required.

* A generic brand of CD/DVD are used to keep cost low, but on request & for only a little extra we burn & print on your choice of disk.

** Replication can be done with runs as low as 500, but it only becomes cost effective with orders greater than 2 000.

*** At a 20% urgency levy your print job can be bumped up to 48 hours per 1 000 discs.

Additional services include multi-media ROM coding, DVD authoring, graphic design, photography, 3d animation, video production and EPKs for artist.
We do ad a minor setup charge for print designs that is not comparable with our template.
The setup charge include the making of a high-comparability master.

Please have a look at our website for additional services and promotions.
